NEW PENNEY STORE TO OPEN FRIDAY

IS ONE CHAIN OF NEW STORES ESTABLISHED IN MIDDLE WEST

FOUNDER MISSOURI MAN

Force of Local Sales People Employed—No Special Event to Mark Formal Business Opening

The J. C. Penney store will open for business at nine o'clock Friday morning. No special event will be connected with the opening, the store will simply be opened to the public with the force of sales people ready to show every one about the store and also to show the lines of merchandise.

The store has been entirely redecorated and all new fixtures installed. The general color is old ivory with plain oak shelving and cases.

The store is under the management of Bartholomew of Salt Lake City. The force of sales people at present will include L. F. Mitchell of Burlington Junction, Miss Eva Willis of Ravenwood, H. W. Brigaman, Miss Pauline Wilson, Mrs. J. T. Dutton, Mrs. E. T. Dale and Leonard Gray of this city.

The founder of the Penney company, J. C. Penney, opened his first store at Kemerer, Wyo., in April, 1902. This spring he is celebrating the eighteenth anniversary of his adventure in finance by opening one hundred new stores, most of them at points through the middle west. With the opening of these new stores there will be two hundred and ninety seven retail stores owned and operated by the J. C. Penney company. Mr. Penney was born and reared on a farm near Hamilton, Mo.

When young Penny was nine years old he entered the list of future capitalists with one Berkshire hog being encouraged by his father, who allowed him on Saturdays to go over the fields after the corn had been gathered by the huskers and take what he found.

He made money on his hogs, also on his next venture, watermelons, although he had no help and had to sleep in a tent with a dog and gun for his companions to remove temptation from watermelon lovers roundabout. A little later he edited a newspaper in Hamilton which he sold for pins, a pin being of more value in those days than two cents today. When he was 19 he went to work in a general store in Hamilton, receiving $25 for eleven months' work.

The boy's eagerness to learn, his willingness to sweep, dust—to do anything if he might, while doing it, add to his stock of knowledge everything pertaining to the merchandise in the store—bore fruit, for the second year he was promoted to $200 a year, and when he left to seek better health in Colorado he was getting $25 a month.

His first job in Denver paid him $6 a week, and he left it to go into the butcher business in Longmont, making a dismal failure. Ill, without money or friends, he obtained a temporary position with a dry goods firm, made good, and when the man whose place he was supplying returned to work, Penney's employer sent him to Evanston, Wyo., to work for his partner there at $50 a month.

When he had saved $500 he borrowed $1,500 and bought a one-third interest in a store at Kemmerer, Wyo., and it was there the cornerstone of his success was laid.

For some time Mr. Penney, his wife and two children lived in a half-story room above the store; discarded dry goods boxes served as tables and chairs; they experienced many privations, but always saved a little money. In five years he had paid off his indebtedness and had bought a little home, his wife aiding him by building the summer kitchen of dry goods boxes.

He bought out his partners; his one little store grew into more, and soon there was a chain of stores.

"I take no credit to myself," says Mr. Penney. "I owe my success to my partners. The Penney Company stores have gone ahead by picking men with partnership qualities."

Mr. and Mrs. A. W. Frazee, living north of the city, announce the birth of a daughter this morning to whom they have given the name Gertrude.

G. O. P. FACTIONS ARE LINING UP FOR BATTLE

Congressional Convention at Savannah Tomorrow Promises to be Lively.

Interest in the convention which the Republicans of the Fourth congressional district will hold at Savannah tomorrow is expected to center about the fight which is being waged in Buchanan County to control the party's machinery here.

The convention will select two delegates and two alternates to represent the Fourth district in the national Republican convention at Chicago and will transact other convention business including possible resolutions and indorsements of candidates, but the real scrap of the convention is expected to be over the seating of one of the two rival delegations from Buchanan County.

The Republican delegations from St. Joseph—one pledged to support Clarence U. Philley for national delegate and the other pledged to John S. Boyer—are preparing for a bitter fight. Neither side is press-agenting its advance activities, but the wires are being laid and those close to the situation say something unusual may be expected in the way of pyrotechnics.

There is some talk to the effect that an attempt will be made to have the credentials committee hold an open hearing on the Buchanan County contest, and let both sides "fight it out" for the sport of the populace.

But, regardless of the outcome, it is admitted that the fight won't end at Savannah. It is said that the losing delegaion from Buchanan county will go into a "rump" convention of its own, elect two delegates and two alternates to the national convention, and go to Chicago prepared to fight the battle all over.

COUNTY PASTORS IN MEETING TOMORROW

ALL DENOMINATIONS GATHER AT FIRST METHODIST CHURCH.

FOR INTER-CHURCH WORK

Discussion of Plans for Coming Financial Campaign Will Follow Dinner Served by Methodist Women.

The pastors of all churches and of all denominations in Nodaway County have been invited to a dinner to be given tomorrow night at the First Methodist Church in this city at which the financial problems relative to the Inter-Church World Movement will be discussed. In addition to the pastors a committee of the representative men of each church has been invited to attend the dinner and discussion to follow.

Rev. R. E. Snodgrass, pastor of the First Christian Church, who is director of the work in Nodaway County, is in St. Joseph today in consultation with workers in that district regarding the plans used.

An outside speaker will be present tomorrow night to explain some of the details of the movement and aid in formulating plans for the Nodaway County financial drive. The dinner will be promptly at 6 o'clock in order that the time for discussion will not be curtailed. The women of the First Methodist Church will serve the dinner.

The national financial objective of this movement which is the greatest in Christian world history, is to obtain $336,777,572 to further world mission work and Christian education, and of this sum $175,448,849 is to be paid in 1920.

That amount is the total of all the accepted budgets of the participating denominations. Each denomination has set its own goal. If a church subscribes $30,000 it also decides how much of that amount will be turned over to the general fund and how much will be used for debts and expenses in that particular church. The church may decide to retain any per cent of its subscription which it pleases to retain.

The inter-church movement is not so complicated as the name implies. It is simply an organized effort on the part of the churches to obtain funds. Less than a third of the total amount subscribed in the national drive will be used for foreign missions.

A summary of the budget for 1920:

For foreign missions, $107,666,488; for home missions, $109,949,937; for American education, $78,837,341; for American religious education, $5,931,925; for American hospitals and homes, $3,116,465; for American ministerial pensions and relief, $10,510,299, and for miscellaneous purposes, $8,770,927.

SENATOR JOHNSON TO CONTEST WOOD MAJORITY

Demands Recount of Votes—Wood Certain Winner by Several Hundred—Charge Fraud.

New York, April 29—With nearly all returns in today, it appeared that General Wood would be a certain winner by several hundred votes. The closeness of the race however and reports received from Johnson's supporters in certain sections of the state that frauds have been perpetrated, moved Johnson's eastern force to take action. In Camden county especially it is suspected by the California Senator's friends that Wood piled up a big majority in that district due, it is alleged to by Johnson adherents, to "machine methods" and political trickery.

New York, April 29—Senator Johnson will formally demand a recount of votes cast Tuesday in the New Jersey presidential primaries, was announced here today at Johnson's eastern headquarters. Anson McSween, Johnson's campaign manager consulted the league authorities this morning and later said he would ask that a custodian be appointed to take charge of the ballot boxes.

STRIKE OF ANTHRACITE MINERS MAY FOLLOW WAGE CONFERENCE

New York, April 29—The strike of mine workers in the anthracite coal fields loomed up today as the result of failing to compromise on the fifteen per cent wage increase by the general scale committee of the United Mine Workers, meeting here with the operators on a new working agreement. Miners leaders declared negotiations had come to a crisis and threatened to break unless the operators immediately revised the offer. The conferees meet this afternoon for a final conference of the miners demands.

Pontiac, Mich., April 28—Anson Best, twenty-two, who Wednesday confessed having murdered Vera Schnecker, nineteen year old telephone operator "because she wanted him to," today admitted he had slain her while attacking her and that she had "died fighting." The new confession was obtained from the youth after ceaseless grilling at the court house. The jail where Best is confined is heavily guarded to prevent lynching.

ARRIVED IN MARYVILLE FIFTY YEARS AGO MONDAY

When W. R. Bosley Came to This City the Burlington Did Not Extend Beyond Tile Factory Site.

W. R. Bosley celebrated the fiftieth anniversary of his arrival in Maryville last Monday. At the time Mr. Bosley came, the Burlington railroad only went as far as the present tile factory. The first person Mr. Bosley met was Tom Shoemaker, the father of Frank Shoemaker of this city and he at once went to work for Mr. Shoemaker, helping to unload freight which was mostly lumber and building material which Mr. Shoemaker had ordered. This material was for his own home and for that to be built for Charles Lichtenwalter.

Mr. Bosley drove a freight wagon across the prairies making the acquaintance of David Phillips, John Storm, John Hanaway and David Hays, all of whom were then settled on farms southwest of Maryville.

Mr. Bosley operated a threshing machine and only missed one fall between the years of 1871 and 1893 in being out at work.

In July, 1900, Mr. Bosley started carrying the mail from Graham to Hughes and White Cloud, carrying 26 months and only missing one trip on account of the bad roads. He held this job until 1902 when the rural routes were started and Mr. Bosley was released.

ROAD CASE WILL HAVE TO GO OVER UNTIL AUGUST

The Hopkins Journal this week had the following:

By an oversight in not giving the required notice regarding the proposed hard surfaced road district covering territory between Hopkins and Pickering by way of the Narrows, the county court cannot act on the matter until the next regular term in August, and parties interested are very much disappointed.

In addition to the $1200 a mile allowed by the state for grading, an additional $50,000 has been set aside for Nodaway county provided the road runs as surveyed, the state officials making it plain that no apportionment whatever will be made in case the road is not ordered as surveyed, so it is believed the court will act favorably in August as Nodaway county does not want to lose the road.

Like oranges? Drink ORANGE-CRUSH

SO wholesome and good are Ward's Orange-Crush and Lemon-Crush—so carefully guarded their quality and purity—that even the littlest tots will thrive upon their harmless deliciousness. Your physician will tell you this.

And how the children like them! They are the drinks the kiddies dream about. All their tempting flavor and fragrance come from the delicate oil pressed from the fruit itself, combined by the exclusive Ward process with purest sugar and citric acid—the natural acid of citrus fruits.

The MOLINE Tractor is Universal

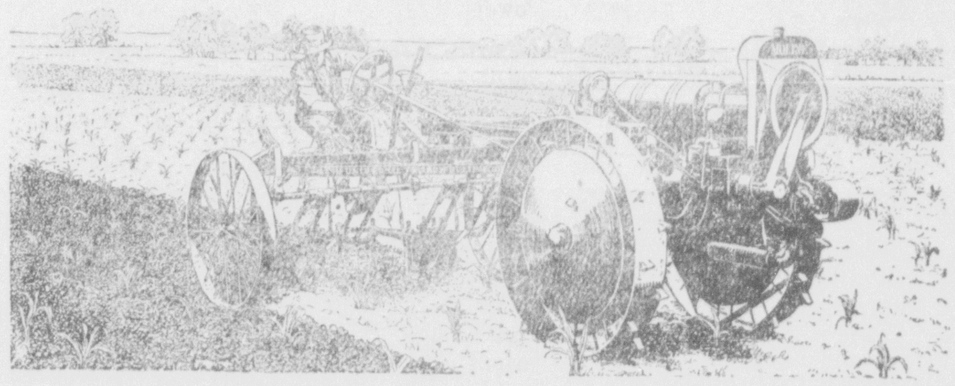
6 Indispensable Results

No duplication by horses	Because	Does all field work, including cultivating, harvesting and belt work
A large saving in labor	Because	One man completely operates both tractor and all implements
Great ease of operation	Because	A single seat in the center of all controls of tractor and implement
Can back and turn short	Because	A single unit of operation—the tractor and implements form but one unit
Faster and faster work	Because	Operator sees all his work—"Foresight is better than hind sight"
Power used as horses are used	Because	Traction power in front of the work with operator behind the work

The principle of doing all field operations with one man sitting where he can watch his work is correct, or farming has always been done backward, and the operator would always have ridden or led his horses instead of driving them.

The Moline Universal Tractor places the power of nine big horses where the horses stood—is driven just like horses are driven, from the seat of the implement, and hitched up to the implements just as horses are hitched.

Utility Is Not Sacrificed for Price



If desired you can use the "drag behind" or horse drawn implements you now have with the Moline Universal Tractor, the same as with other types of tractors.

Is Visiting in Pickering.

The following is taken from this week's Pickering Items in the Hopkins Journal. Star Carmichael, who has the distinction of writing the best humorous article concerning the hound dog controversy that filled the Nodaway County papers for several weeks, is visiting his brother, Arch here. Uncle Star was able to even put a kick in the pen of Col. Heffner who shut up like a clam and has stayed shut ever since.

Mrs. Ed Brewer of Shenandoah, Ia., is in Maryville visiting friends for a few days. From here, Mrs. Brewer will go to Kansas City where she expects to make her home with her daughters, Misses Nora and Mayme Brewer.

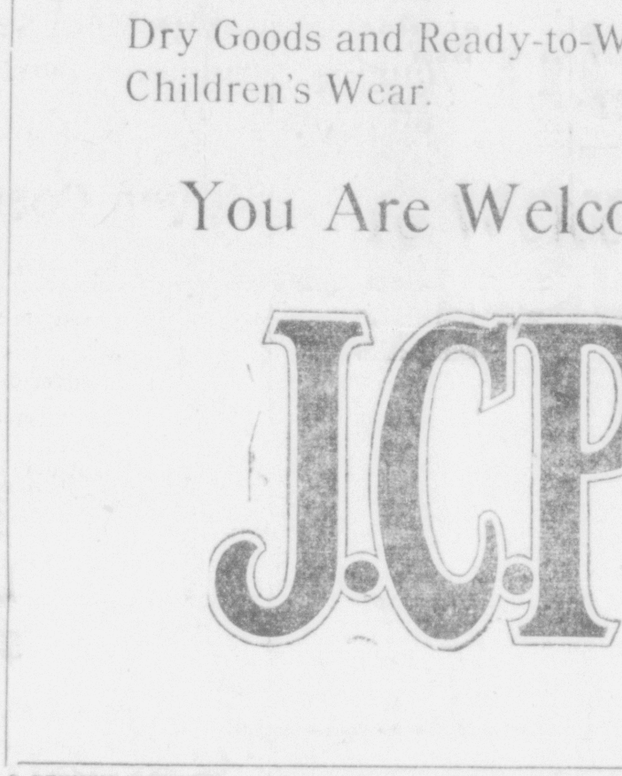
Du Pont—our choice of the 400 brands of paints and varnishes—know why?



Shortest answer to that question is, use a can of their product. The first brushful tells you the quality and when the job is finished you KNOW that we chose Du Pont Paints and Varnishes out of the 400 and more leading brands sold in the country because we believe they are the Best; and we won't sell you anything else if we can help it.

Stands to reason that a concern that has been in business over a century will never risk their reputation putting out mediocre goods.

Look around your property—you need some paints—or varnishes—or enamels—or wall-tints—or finishes. See us!

The mattress of "individual comfort"

Why Do Some People Always Wake Up Tired

Lots of folks sleep all night. But they don't rest. They sleep "light." Or they dream all night and get up in the morning almost as tired as when they go to bed.

Nobody can build up vitality this way.

Many don't get the right kind of sleep because of their beds. You can't get real sound sleep unless your bed invites every nerve and muscle to relax.

The bed has three component parts; the bed itself, the spring and the mattress. Each very essential to sound sleep. But the part we want to discuss in this ad. is the MATTRESS.

Examine the mattress on your bed. Is it hard and lumpy or does it make a soft pilloy for the body, which allows every muscle to relax?

If you have the former kind you are not getting all you should from your night's sleep and probably you get up in the morning feeling tired.

If you have the latter kind you will get up in the morning feeling refreshed and ready to tackle anything that comes up in a day's work.

Perhaps you think that mattresses are a little high now and that you can't afford a new one, but if you will come in and examine our line we will show you that a good mattress is the cheapest thing that you can buy today.

If you choose the best "SEALY" made and figure the lowest possible minimum of use you will get out of it, as 25 years, and it would cost you about $2.00 per year.

Surely it is worth $2.00 a year to have such a bed.

The first time you are down town come in and see our display of "SEALY" Mattresses. They are priced from **$19.15 to $53.35.** Other Mattresses from **$8.35 up.**

We also sell "WAY SAGLESS SPRINGS," SMITH DAVIS and SIMMON'S BEDS.

TARWATER MURDER CASE AT GALLATIN MONDAY

Gallatin, April 29—The trial of Hugh Y. Tarwater, former city clerk of Gallatin, on a charge of first degree murder in the shooting of Wesley L. Robertson, editor of the Gallatin Democrat, Dec. 23, last, will be called in the Daviess County circuit court here next Monday.

No statement has been made by the attorneys representing Tarwater as to what disposition of the case will be sought. It is probable his counsel may ask for a change of venue. Another suggestion is that a date later in this term will be set, and at that time the defense again will seek a continuance. The prosecution will seek an early trial.

It is generally believed that an attempt will be made by the defense to prove Tarwater's insanity, invoking testimony concerning a term he spent in the state hospital at St. Joseph twelve years ago and his actions since that time.

Tarwater was removed to the Buchanan County jail following the shooting, but was later returned to the jail here, where he is now incarcerated.

Mrs. Fred Hull and son, Kenneth went to Grant City this morning where they expect to spend a week visiting with relatives.
